## KETHINK

## Introduction

The KT- MC15K High-speed Small centrifuge is a compact centrifuge capable of achieving centrifugal speeds up to 15000 rpm, that is approximately 15080 g . It is used for extracting RNA/DNA samples, sedimentation of biological components, biochemical and chemical analysis of micro samples. Automatic imbalance switch-off and locking of lid provide safe operation. The rotor accepts 1.5 to 2.0 ml tubes directly, as well as 0.5 ml and 0.2 ml tubes with optional adapters.

## Features:

- LCD provides a clear indication of time and rpm or RCF.
- RPM/RCF setting as required.
- The rotor is made of nylon material, with corrosion resistance, minimizes the temperature increases during longer run at high speed.
- Accelerates and decelerates in just 14seconds.
- Safety operation: rotor imbalance diagnostic; automatic stop.
- Motor overheating protection function.
- A separate momentary short button permits instant spin downs.
- Low sample heating (only $5^{\circ} \mathrm{C}$ after 30 min , at max. speed).
- A brushless motor provides noiseless performance and long service life.

## Parameters

| Model | KT-MC15K |
| :---: | :---: |
| Capacity | $12 \times 1.5 / 2.0 \mathrm{ml}$ centrifuge tubes |
| Speed range | $500 \sim 15000 \mathrm{rpm}$ |
| RCF range | $16 \sim 15080 \mathrm{~g}$ |
| Timing range | $15 \mathrm{sec} \sim 99 \mathrm{~min} 59 \mathrm{sec} / \infty$ |
| Acceleration | $14 \mathrm{sec}(0 \sim 15000 \mathrm{rpm})$ |
| Deceleration | $14 \mathrm{sec}(15000 \sim 1000 \mathrm{rpm})$ |
| Rotor imbalance diagnostic | Yes |
| Motor overheating protection function | Yes |
| Power | 120 W |
| Voltage | DC24V/5A |
| Dimension(mm) | $255 \times 194 \times 140 \mathrm{~mm}$ |
| Weight | 2.3 kg |
